

FIRST DATA FD50 TERMINAL

First Data FD50 - POS Credit Card Equipment

Finally, an affordable I.P. based credit card machine! The First Data FD-50 can authorize a credit card in just 2 seconds when connected to your existing internet connection.

Speed up your checkout lines... The FD50 will help eliminate lost sales opportunities due to long lines because of less than acceptable transaction times. Always on connection via I.P. with dialup backup. Speed and power are packed into its small footprint, making the First Data FD50 credit card machine a dynamic solution.

FD-50 CREDIT CARD MACHINE FEATURES AND BENEFITS:

The FD-50 can connect your internet router and/or your regular phone line. When connected to both it can be setup to automatically use your regular phone line as a backup, (In-case your internet connection goes down).

Easy to learn and use. The FD50 includes an integrated thermal printer which makes for a quite and compact payment solution.
